## DATA SHEET FOR 4X4 ACTIVITY

# DE LEONE A SPIELBERG, ruta de las Estrellas DESIERTO DE TABERNAS

### Short description

The Tabernas desert extends over 12,000 hectares classified as a Protected Natural Area. Considered by its climatic characteristics the only one desert in Europe, it has been and it's still right now the backdrop of hundreds of filming and audio visual productions.

After millions of years under the waters of the Mediterranean, the different tectonic movements caused the progressive rising of the seabed, subsequently conforming the current landscape resulting from erosion. The tour crosses the desert through the ramblas, making stops to discover the geology, nature, history and mythical places of this place: : "Lawrence of Arabia", "For a few dollars more", "Patton", "Millenium", "Exodus", "Risen" or "Zona hostil"....trip from Egypt to Afganistán through América, Middle East, Australia and África.
